Professional Summary

Motivated Artificial Intelligence and Software Engineering student with experience in machine learning, backend development, and Generative AI applications. Passionate about building scalable AI solutions using Python, FastAPI, LangChain, and cloud technologies, with hands-on experience in developing intelligent automation systems and production-ready applications.

Education

Bachelor of Technology (B.Tech.) – Artificial Intelligence Engineering
ABC Institute of Technology | 2022 – 2026

CGPA: 8.5/10

Relevant Coursework: Artificial Intelligence, Machine Learning, Deep Learning, Database Management Systems, Data Structures & Algorithms, Operating Systems, Computer Networks

Technical Skills

Programming Languages: Python, C++, SQL, JavaScript

Backend: FastAPI, Flask, REST APIs

AI & Machine Learning: Scikit-learn, TensorFlow, PyTorch, OpenCV, LangChain, LangGraph, Retrieval-Augmented Generation (RAG), Prompt Engineering

Databases: MySQL, PostgreSQL, SQLite, MongoDB

Tools: Git, GitHub, Docker, Postman, Visual Studio Code, Linux

Cloud & Deployment: Railway, Render, Docker, Kubernetes (Basics)

Experience

AI Developer Intern

XYZ Technologies Pvt. Ltd. | January 2026 – June 2026

- Developed AI-powered automation solutions and REST APIs using Python and FastAPI.
- Built OCR, chatbot, and document-processing workflows using LLM technologies.

- Collaborated with developers using Git while deploying applications with Docker.

Technologies: Python, FastAPI, LangChain, Docker, Git

Projects

AI Interview Assistant

Developed an AI-powered interview engine that generates resume-based questions, evaluates candidate responses, maintains interview memory, and produces automated scoring reports.

Tech Stack: Python, FastAPI, LangChain, SQLite, Docker

Intelligent Document Chatbot

Built a Retrieval-Augmented Generation (RAG) chatbot capable of answering questions from PDF documents using semantic search and vector embeddings.

Tech Stack: Python, LangChain, ChromaDB, Hugging Face, FastAPI

Sales Analytics Dashboard

Designed a business analytics dashboard featuring sales forecasting, customer segmentation, and interactive KPI visualizations.

Tech Stack: Python, Pandas, Plotly, Streamlit

Certifications

- Machine Learning Specialization
 - Python Programming Certification
 - SQL for Data Analysis
 - Generative AI Fundamentals
-

Achievements

- Finalist in a university hackathon and contributor to open-source projects.
 - Developed multiple AI applications and organized technical workshops.
-

Leadership & Activities

- Technical Club Volunteer
 - Open Source Contributor
-

Languages

English (Professional), Hindi (Native), Regional Language (Native)
